RK-10

The Dino-Lite RK-10 universal stand is a stable tabletop platform that features precise fine-focus adjustment and a new quick release function. This high-quality product is compatible with our complete line of handheld microscope cameras, even upcoming high-magnification models such as the AM4515T5 (500x) and AM4515T8 (800x).

The RK-10 features a quick release button for fast and convenient vertical movement and a fine-focus adjustment knob that is especially useful at high magnification. This model also includes an adjustable safety stop that helps prevent accidental collisions between the microscope and the object under view. Its adjustable horizontal arm has a 7-inch range with 360-degree rotation and optional arm attachments are available that increase its effective range of motion. These features combine to provide complete command and control of microscope orientation and positioning for maximum productivity and ease of use.

The RK-10 is composed of resilient stainless steel and lightweight aluminum with a static charge dissipative base plate. This combination of features makes this product suitable for a wide range of environments including industrial, academic, and office settings.

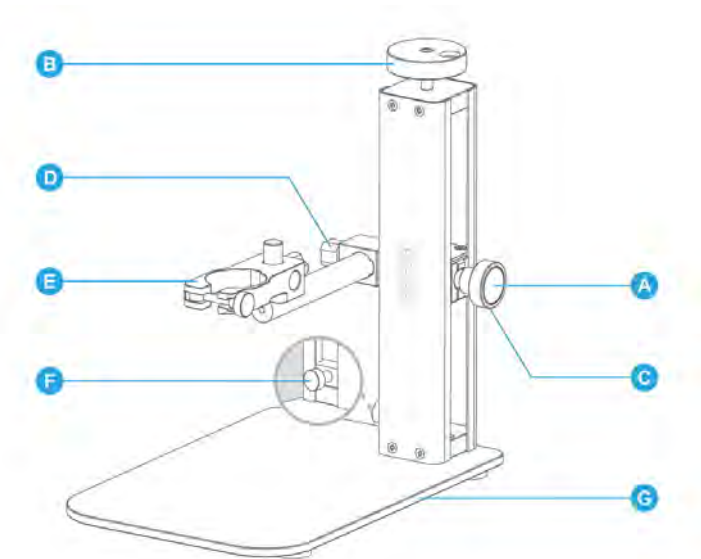

Model	RK-10 Rack
Unit Weight	approx. 1050 g = 2 lb. 5 oz.
Unit Dimension	22 cm (L) x 15 cm (W) x 23 cm (H)

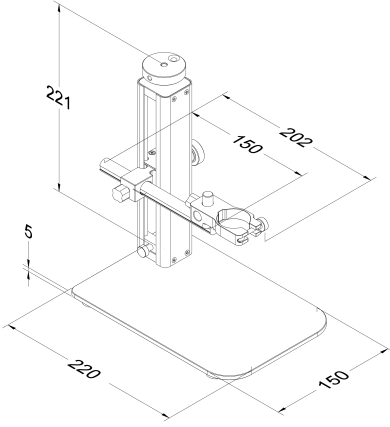

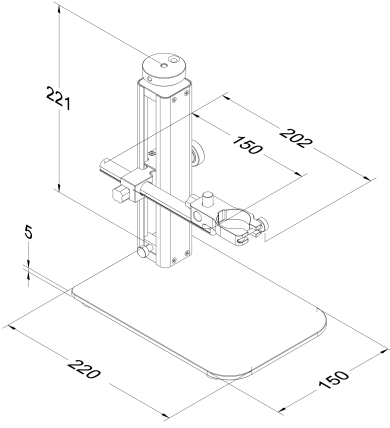

RK-10F / RK-10FS

The RK-10F is an upgraded version of the RK-10, featuring an improved quick release button with an anti-backlash mechanism that enhances its ability to make precise focus adjustments, ensuring smoother and more responsive operation.

The RK-10FS incorporates a heavier antistatic baseplate that suppresses external vibrations, making it an optimal choice for stable operation under high-magnification inspections.

- A:** Quick Release Button
- B:** Fine-Focus Knob
- C:** Anti-Backlash Lock
- D:** Arm Screw
- E:** HD-M2A Holder
- F:** Safety Stop
- G:** Baseplate

RK-10F	
Baseplate Material	Aluminum alloy with rubber pads
Unit Weight	Approx. 1050 g
Unit Dimension	<div>226 mm (H) x 150 mm (D) x 220 mm (L)</div> <div></div>
RK-10FS	
Baseplate Material	Steel with rubber pads (ESD dissipative)
Unit Weight	Approx. 1900 g
Unit Dimension	<div>226 mm (H) x 150 mm (D) x 220 mm (L)</div> <div></div>

RK-06

The Dino-Lite RK-06 tabletop stand is designed for general purpose but built with quality. With smooth focus adjustment and quick vertical movement, the RK-06 eases the task of focusing when using Dino-Lite microscopes. The ease-of-assembly and adaptable extension arm design adds further mobility and flexibility to user's applications.

Model	RK-06 Rack
Unit Weight	approx. 1060 g = 2.35 lb.
Unit Dimension	22 cm (L) x 15 cm (W) x 27 cm (H)

RK-06F

Dino-Lite RK-06F is a multi-purpose tabletop stand that provides flexibility and robustness, yet provides fine adjustment to ease the focusing task.

Model	RK-06F Rack
Unit Weight	approx. 1045 g = 2.3 lb.
Unit Dimension	22 cm (L) x 15 cm (W) x 27 cm (H)

RK-05

If you want to observe your object or specimen from a different perspective, the Dino-Lite RK-05 stand provides a multi-angle view with its 30 degrees inclinable pole feature. RK-05 is a light-weight, ultra-portable stand with a one-step assemble/disassemble design.

Model	RK-05 Rack
Unit Weight	approx. 611 g = 1.35 lb.
Unit Dimension	14 cm (L) x 11 cm (W) x 16.5 cm (H)

RK-05F

The compact, portable, and inclinable Dino-Lite RK-05 offers users the ability to observe targets from a different point of view with its tilt and stay inclinable pole, yet provides fine/coarse adjustment to ease the focusing task.

Model	RK-05 Rack
Unit Weight	approx. 636 g = 1.4 lb.
Unit Dimension	14 cm (L) x 11 cm (W) x 16.5 cm (H)

RK-04

Robust, lightweight and compact rack design. The Dino-Lite RK-04 rack is designed with portability and convenience in mind.

Model	RK-04 Rack
Unit Weight	approx. 605 g = 1.3 lb.
Unit Dimension	14 cm (L) x 11 cm (W) x 16.5 cm (H)

RK-04F

Dino-Lite RK-04F integrated fine adjustment knob facilitates the focusing task. RK-04F is a portable, lightweight and robust rack, the perfect accessory for users requiring flexibility.

Model	RK-04F Rack
Unit Weight	approx. 630 g = 1.4 lb.
Unit Dimension	14 cm (L) x 11 cm (W) x 16.5 cm (H)

RK-02

The RK-02 is a durable gooseneck rack designed for flexible and ergonomic usage for Dino-Lite. The C-clamp of RK-02 fits to most desk surface or pole up to 3-inch in thickness, horizontally or vertically. With excellent shaping capability of the gooseneck arm, the Dino-Lite can be easily positioned by bending the arm and by adjusting the rotating head. The arm base can also be rotated to provide more degree of freedom, or be fixed with the quick release fastener for uneven surface usage. With the flexible nature, the space-saving RK-02 is ideal for using with most Dino-Lite excepting high magnification models.

Model	RK-02 Gooseneck Rack
Unit Dimension	C-Clamp clamping capacity: 7 cm Max. Gooseneck: 60 cm (L) x 1.5 cm (D)
Materials	C-Clamp: steel Gooseneck: black chrome plated steel Rotating head: aluminum alloy and steel
Unit Weight	1.5kg
Package Dimensions	25cm (L) x 8cm (W) x 3cm (H)

MS-W1

The MS-W1 roller rack with HD-M1 holster is a purposefully crafted yet minimalistic designed stand that snugly holsters the Dino-Lite handheld microscopes in place. The arcs on the MS-W1 let users to easily examine cylindrical objects such as roller printing rolls with ease. The barrel rollers at the bottom of the arcs are wrapped in rubber which also helps prevents the stand from scratching or harming the surfaces it is examining. The tubular objects it can examine would need to be greater than 7 centimeters in diameter for the stand to be effective.

With the two barrel rollers, the MS-W1 stand can also be rolled forward or backward which is great for surface inspection; such as inspection of artwork, blank PC boards, or any other flat surfaces.

The HD-M1 holster included with the MS-W1 roller rack can be separated and be attached to poles 10mm or 8mm in diameter. The Dino-Lite is secured in place on the holster by a single thumbscrew. The holster is secured to a guidance pole also with a separate thumbscrew.

Model	MS-W1 Wheel Rack with Metallic Holster
Unit Dimension	8cm (L) x 4.5cm (W) x 12cm (H)
Package Dimensions	16cm(L) x 16cm(W) x 6cm (H)

HDE-01

The HDE-01 is to provide a more ergonomic handheld operation for vertical inspection by attaching the handler to a Dino-Lite. With lightweight aluminum clamp grip and position adjustability, the HDE-01 can be held easily with Dino-Lite secured. It can be suited in applications such as otoscopy, endoscopy and other inspections.

Model	HDE-01
Unit Weight	180g (with rest plat included)
Unit Dimension	Pole : 16.5cm (H) x 8.09cm (L) x 3.6cm (W) Rest Plat : 6.5cm (D) x 0.5cm (H)

Dino-Lite Dino-Lite

MS08B

Compact Portable Table Top Stand

The MS08B is a compact portable, sturdy stand that comes with the HD-P1 holster. The compact design is great for travelers or users with limited space, providing a stable base and adjustable height up to 5.7" (14.5cm).

Dimensions	4.7cm (L) x 3.8cm (W) x 6.3cm (H)	Package Includes	Holster
Weight	70g (2.5 oz)	Warranty Period	1 year
Body Material	Metal	Manufactured in	China
Compatible with	All Dino-Lite Handheld Microscopes	Regulatory Approval	ROHS

Dino-Lite Dunwell for Dino-Lite

MS09B

Portable Table Top Stand

Designed for Dino-Lite: The MS09B brings you a similar table top type of design concept as the MS35B stand in a smaller more portable setup that uses a flat or horseshoe base. Because of its miniature size this stand will take up much less space when users need to minimize space whether in an office, workplace or demonstration environment. The MS09B stand comes complete with 2 different bases for different needs.

First is a regular flat base with a slight 3×3 grid grooves to help center objects. Second is a 'horseshoe' type of base providing a direct view through the stand for various applications. Both bases have rubber grip pegs to help hold the stand in place and simultaneously not damage the surface the stand is used on.

The MS09B is another versatile tool in the expanding line of Dino-Lite accessories to help you maximize your potential.

Dimensions	4.7cm (L) x 3.8cm (W) x 6.3cm (H)	Package Includes	Holster
Weight	70g (2.5 oz)	Warranty Period	1 year
Body Material	Metal	Manufactured in	China
Compatible with	All Dino-Lite Handheld Microscopes	Regulatory Approval	ROHS

Dino-Lite Dunwell for Dino-Lite

MS09B-S

Stainless Steel Portable Stand

The MS09B-S is a stainless steel variant of the popular MS09B stand which now includes 2 bases; a horseshoe base and a slim base designed to help with handheld use. This portable and convenient stand was designed for handheld examinations in medical or veterinarian applications and quick inspections where the smaller base can be out of the viewing area.

This portable MS09B-S stand also provides the ability to place the scope further away, while lowering the scopes magnification to achieve a larger field of view. This is especially useful for dermatological, trichoscopy, and other applications where viewing a larger area is important while still maintaining the practical handheld usage. The stainless steel design is ideal for sterilization, also available as an option is the MSHD-M1 metal holster. (not included)

Dimensions	4.7cm (L) x 3.8cm (W) x 6.3cm (H)	Package Includes	Holster
Weight	70g (2.5 oz)	Warranty Period	1 year
Body Material	Metal	Manufactured in	China
Compatible with	All Dino-Lite Handheld Microscopes	Regulatory Approval	ROHS

Dino-Lite Dunwell for Dino-Lite

MS11B

Adjustable Horizontal Tripod

Stable mobile tripod tabletop stand that is an optimal choice for horizontal camera setup. The MS11B can be adjusted in height, rotate for desired viewing, and the holster pivots or bows up and down for more viewing options. Because it provides great horizontal views, MS11B has found ideal usage for real time viewing of large objects or as well as small details from bigger objects. Also good for use in spa, dental, and insurance applications as it can sit at the right height and capture images of a face or certain cosmetic or dental usage such as full viewing of teeth. The MS11B folds up for easy storage and mobility while still providing a sturdy base for reliability in many applications. The MS11B is a great option for users looking for a larger horizontal viewing area.

Dimensions	4.7cm (L) x 3.8cm (W) x 6.3cm (H)	Package Includes	Holster
Weight	70g (2.5 oz)	Warranty Period	1 year
Body Material	Metal	Manufactured in	China
Compatible with	All Dino-Lite Handheld Microscopes	Regulatory Approval	ROHS

Dino-Lite Dunwell for Dino-Lite

MS12C

Portable Cradle Stand

Portable cradle stand that includes a base unit with two insert adapters providing three "hands free" fixed working distance and magnification options. Ideal for collectors, hobbyists, graphic artists as well as in the home and classroom. The stand is designed so that the Dino-Lite digital microscope (excluding polarizer "AM"+"ZT" models) simply slides into either the base itself for near inspection/higher magnification or into one or both of the "stackable" insert adapters for greater working distance/lower magnification.

When using a base+single adapter an entire USA penny can be viewed while using the base+both adapters allows an entire USA quarter to be viewed. The clear acrylic cutaway base design allows easy accessibility of tools and light to the observed object.

*This entry level stand is not recommended for professional use, constant magnification adjustment, or high magnification applications. For adjustable angled viewing and more stability, see the MS33M, RK-02, or MS36A-C2. Contact us for more information.

Dimensions	4.7cm (L) x 3.8cm (W) x 6.3cm (H)	Package Includes	Holster
Weight	70g (2.5 oz)	Warranty Period	1 year
Body Material	Metal	Manufactured in	China
Compatible with	All Dino-Lite Handheld Microscopes	Regulatory Approval	ROHS

Dino-Lite Dunwell for Dino-Lite

MS12D

Portable Cradle Stand

Portable cradle stand providing convenient fixed working distance viewing or used to holster the scope after handheld use such as in dermatology or scalp inspections.

The stand is designed so that any Dino-Lite scope simply slides into the MS12D for quick and simple viewing at a slight angle. Alternatively, users may position the scope and move the viewing subject beneath the MS12D. As an additional option, hold the MSD12 cradle with the scope holstered and attached to inspect objects, such as printing paper or any flat object.

Dimensions	4.7cm (L) x 3.8cm (W) x 6.3cm (H)	Package Includes	Holster
Weight	70g (2.5 oz)	Warranty Period	1 year
Body Material	Metal	Manufactured in	China
Compatible with	All Dino-Lite Handheld Microscopes	Regulatory Approval	ROHS

Dino-Lite Dunwell for Dino-Lite

MS22B

Flex-arm Desktop Stand (Black)

Designed for Dino-Lite: Articulating desktop stand with black holster and black base designed for use with the Dino-Lite handheld digital microscope cameras. The Dino-Lite handheld microscope (not included) slides directly into a holster which is mounted onto a peg connected to the articulating arm. The 16" long articulating arm can be moved into your desired height and angle for very versatile viewing.

*Due to the flexible nature and movement of this entry level stand, it is not recommended for professional use, constant magnification adjustment, or high magnification applications. For adjustable angled viewing and more stability, see the MS33M, RK-02, or MS36A-C2. Contact us for more information.

Dimensions	4.7cm (L) x 3.8cm (W) x 6.3cm (H)	Package Includes	Holster
Weight	70g (2.5 oz)	Warranty Period	1 year
Body Material	Metal	Manufactured in	China
Compatible with	All Dino-Lite Handheld Microscopes	Regulatory Approval	ROHS

Dino-Lite Dunwell for Dino-Lite

MS23B

Flex-arm Clamp

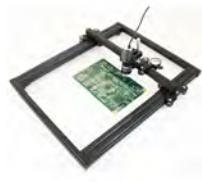

Articulating clamp stand. This clamp allows optimum viewing angles and uses minimal desk space while attached to any desktop or workspace area. The MS23B is a sturdy clamp suitable for desk thickness up to 3 /4 " and the flex arm extends 14 inches.

*Due to the flexible nature and movement of this entry level stand, it is not recommended for professional use, constant magnification adjustment, or high magnification applications. For adjustable angled viewing and more stability, see the MS33M, RK-02, or MS36A-C2. Contact us for more information.

Dimensions	4.7cm (L) x 3.8cm (W) x 6.3cm (H)	Package Includes	Holster
Weight	70g (2.5 oz)	Warranty Period	1 year
Body Material	Metal	Manufactured in	China
Compatible with	All Dino-Lite Handheld Microscopes	Regulatory Approval	ROHS

Dino-Lite Dunwell for Dino-Lite

MS26X

XY Inspection Rack

The MS26X inspection rack provides easy manual adjustment across XY viewing planes. The smooth movement and flat movement provides seamless and smooth XY movements in a 300mm x 400mm area. The Dino-Lite holster can be adjusted to vary in height and can also be tilted by the adjustable ball and socket pole.

Dimensions	4.7cm (L) x 3.8cm (W) x 6.3cm (H)	Package Includes	Holster
Weight	70g (2.5 oz)	Warranty Period	1 year
Body Material	Metal	Manufactured in	China
Compatible with	All Dino-Lite Handheld Microscopes	Regulatory Approval	ROHS

Dino-Lite Dunwell for Dino-Lite

MS33A

Articulating Arm with Single Locking Knob

MS33A is a fully adjustable articulating arm designed for Dino-Lite microscope cameras. The articulating arm can be handled and adjusted simply with one hand with the single knob locking mechanism which when tightened will hold the Dino-Lite in the desired position. When extended flat, the arm has a 9" reach.

Product note: There are variations of this stand with a magnetic bases: MS33M, MS33M-LG

Dimensions	4.7cm (L) x 3.8cm (W) x 6.3cm (H)	Package Includes	Holster
Weight	70g (2.5 oz)	Warranty Period	1 year
Body Material	Metal	Manufactured in	China
Compatible with	All Dino-Lite Handheld Microscopes	Regulatory Approval	ROHS

Dino-Lite Dunwell for Dino-Lite

MS33M

Magnetic Base Articulating Arm with Single Locking Knob

MS33M is a fully adjustable articulating arm with an industrial magnet base designed for Dino-Lite microscope cameras. The MS33M magnet base allows for easy placement on magnetic surfaces with a simple On/Off switch. The articulating arm can be handled and adjusted simply with one hand with the single knob locking mechanism which when tightened will hold the Dino-Lite in the desired position.

Product note: For a stand with a larger and stronger magnetic base see the similar, MS33M-LG

Dimensions	4.7cm (L) x 3.8cm (W) x 6.3cm (H)	Package Includes	Holster
Weight	70g (2.5 oz)	Warranty Period	1 year
Body Material	Metal	Manufactured in	China
Compatible with	All Dino-Lite Handheld Microscopes	Regulatory Approval	ROHS

Dino-Lite Dunwell for Dino-Lite

MS33M-LG

Magnetic Base Articulating Arm with Single Locking Knob

MS33M-LG is a fully adjustable articulating arm with an industrial magnet base designed for Dino-Lite microscope cameras. The MS33M-LG magnet base allows for easy placement on magnetic surfaces with a simple On/Off switch. The articulating arm can be handled and adjusted simply with one hand with the single knob locking mechanism which when tightened will hold the Dino-Lite in the desired position.

Product note: MS33M-LG has a larger and stronger magnetic base when compared to the similar MS33M.

Dimensions	4.7cm (L) x 3.8cm (W) x 6.3cm (H)	Package Includes	Holster
Weight	70g (2.5 oz)	Warranty Period	1 year
Body Material	Metal	Manufactured in	China
Compatible with	All Dino-Lite Handheld Microscopes	Regulatory Approval	ROHS

Dino-Lite Dunwell for Dino-Lite

MS35B

Adjustable Vertical Mount

Designed for Dino-Lite: The MS35B is a versatile, lightweight and economical vertical stand with focus adjustment designed for use with the Dino-Lite handheld digital microscope cameras. It has a range of up to 10 inches of vertical working distance from object (up to 20 inches with the optional extension post: MSA2P). The main body assembly with built in fine adjustment slides up or down into position on the vertical post and can be rotated 360 degrees, then secured into position with a rear set screw. The Dino-Lite handheld microscope (not included) slides directly into a holster which is mounted onto a peg located on the main body. A ball and socket type peg allows for up to 45 degrees of adjustable lateral viewing angles while an optional, separate rigid vertical peg provides a dedicated straight-on view allowing for more accurate measurements. The precision machine crafted components provide smooth adjustment and positioning in a well balanced and stable ergonomic design. Manufactured from a combination of resilient stainless steel and lightweight recycled aluminum, the MS35B can easily and conveniently be moved from one work area to another and will endure the harshest of work environments

Dimensions	4.7cm (L) x 3.8cm (W) x 6.3cm (H)	Package Includes	Holster
Weight	70g (2.5 oz)	Warranty Period	1 year
Body Material	Metal	Manufactured in	China
Compatible with	All Dino-Lite Handheld Microscopes	Regulatory Approval	ROHS

Dino-Lite Dunwell for Dino-Lite

MS35B-P4

Adjustable Vertical Mount for Dual Microscopes

The MS35B-P4 is a versatile, lightweight and economical vertical stand with fine adjustment designed for use with 2 Dino-Lite handheld digital microscope cameras. This is a modified version of the popular MS35B stand to feature 2 Dino-Lites on one stand to help view the same object simultaneously with different angles. It has a range of up to 10 inches of vertical working distance from object (up to 20 inches with the optional extension post MSA2P).

The main body assembly with built in fine adjustment slides up or down into position on the vertical post and can be rotated 360 degrees. The precision machine crafted components provide smooth adjustment and positioning in a well balanced and stable ergonomic design. Manufactured from a combination of resilient stainless steel and lightweight recycled aluminum, the MS35B-P4 can easily and conveniently be moved from one work area to another and will endure the harshest of work environments

Dimensions	4.7cm (L) x 3.8cm (W) x 6.3cm (H)	Package Includes	Holster
Weight	70g (2.5 oz)	Warranty Period	1 year
Body Material	Metal	Manufactured in	China
Compatible with	All Dino-Lite Handheld Microscopes	Regulatory Approval	ROHS

Dino-Lite Dunwell for Dino-Lite

MS36A-A2

Vertical + Horizontal Mount With Industrial Base

The Dino-Lite MS36A-A2 is a mount holder bundle with Industrial Base combining the RK-06 rack with Arm Extension RK-10-EX, a tabletop stand designed for general purpose built with quality. With smooth focus adjustment and quick vertical movement, the MS36A-A2 eases the task of focusing when using Dino-Lite microscopes. The ease-of-assembly and adaptable extension arms (2) design add further mobility and flexibility to user’s applications. For users that require additional working distance, the optional RK-06-PL extension pole is available.

Dimensions	4.7cm (L) x 3.8cm (W) x 6.3cm (H)	Package Includes	Holster
Weight	70g (2.5 oz)	Warranty Period	1 year
Body Material	Metal	Manufactured in	China
Compatible with	All Dino-Lite Handheld Microscopes	Regulatory Approval	ROHS

Dino-Lite Dunwell for Dino-Lite

MS36A-A3

Vertical + Horizontal Mount With Industrial Heavy Base

The Dino-Lite MS36A-A3 mount holder bundle with 20 lb Heavy-Duty Base combining the RK-06 rack with Arm Extension RK-10-EX, a tabletop stand designed for general purpose built with quality. With smooth focus adjustment and quick vertical movement, the MS36A-A3 eases the task of focusing when using Dino-Lite microscopes. The ease-of-assembly and adaptable extension arms (2) design add further mobility and flexibility to user’s applications. For users that require additional working distance, the optional RK-06-PL extension pole is available.

Dimensions	4.7cm (L) x 3.8cm (W) x 6.3cm (H)	Package Includes	Holster
Weight	70g (2.5 oz)	Warranty Period	1 year
Body Material	Metal	Manufactured in	China
Compatible with	All Dino-Lite Handheld Microscopes	Regulatory Approval	ROHS

Dino-Lite Dunwell for Dino-Lite

MS36A-C2

Adjustable Precision Mount with Clamp

The Dino-Lite MS36A-C2 is a mount holder bundle with table Clamp combining the RK-06 rack with Arm Extension RK-10-EX, a tabletop stand designed for general purpose built with quality. With smooth focus adjustment and quick vertical movement, the MS36A-C2 eases the task of focusing when using Dino-Lite microscopes. The ease-of-assembly and adaptable extension arms (2) design add further mobility and flexibility to user’s applications. For users that require additional working distance, the optional RK-06-PL extension pole is available.

Dimensions	4.7cm (L) x 3.8cm (W) x 6.3cm (H)	Package Includes	Holster
Weight	70g (2.5 oz)	Warranty Period	1 year
Body Material	Metal	Manufactured in	China
Compatible with	All Dino-Lite Handheld Microscopes	Regulatory Approval	ROHS

Dino-Lite Dunwell for Dino-Lite

MS37B-2X

Dual Scope Vertical + Horizontal Mount

The MS37B-2X is a dual scope inspection stand on a single solid base. This version includes 2 different blocks similar to the MS35B and the MS36B with one block providing an adjustable boom arm and both with a rear set screw for vertical adjustment and a fine adjustment knob to help with precise focus adjustment. The MS35B block includes a vertical holster post and a ball and socket post for angled viewing. The MS36B block provides a boom arm that is great for viewing over an area and different angles. The black solid base has line gauges to aid in positioning and size references. Beneath the base are rubber grip stops to prevent sliding on working surfaces and to avoid possible scratch damage.

Dimensions	4.7cm (L) x 3.8cm (W) x 6.3cm (H)	Package Includes	Holster
Weight	70g (2.5 oz)	Warranty Period	1 year
Body Material	Metal	Manufactured in	China
Compatible with	All Dino-Lite Handheld Microscopes	Regulatory Approval	ROHS

Dino-Lite Dunwell for Dino-Lite

MS37B-25

Dual Scope Vertical Mount

The MS37B-25 is a dual scope inspection stand with a single solid base. Each pole has the same block as the MS35B which provides a rear set screw for vertical adjustment and a fine adjustment knob to help with precise focus adjustment. Each block includes a vertical holster post and a ball and socket post for angled viewing. The black solid base has line gauges to aid in positioning and size references. Beneath the base are rubber grip stops to prevent sliding on working surfaces and to avoid possible scratch damage.

Dimensions	4.7cm (L) x 3.8cm (W) x 6.3cm (H)	Package Includes	Holster
Weight	70g (2.5 oz)	Warranty Period	1 year
Body Material	Metal	Manufactured in	China
Compatible with	All Dino-Lite Handheld Microscopes	Regulatory Approval	ROHS

Dino-Lite Dunwell for Dino-Lite

MS37B-27

Dual Scope Dual Horizontal Mount

The MS37B-27 is a dual scope inspection stand with a single solid base. Each pole has the same block assembly as the RK-06A which provides an adjustable boom arm for viewing over an area, rear set screw for vertical adjustment and a fine adjustment knob to help with precise focus adjustment. The black solid base has line gauges to aid in positioning and size references. Beneath the base are rubber grip stops to prevent sliding on working surfaces and to avoid possible scratch damage.

Dimensions	4.7cm (L) x 3.8cm (W) x 6.3cm (H)	Package Includes	Holster
Weight	70g (2.5 oz)	Warranty Period	1 year
Body Material	Metal	Manufactured in	China
Compatible with	All Dino-Lite Handheld Microscopes	Regulatory Approval	ROHS

Dino-Lite Dunwell for Dino-Lite

MS45BX-D2

Dual Microscope Comparison Stand

Dual specimen comparison stand that provides height, rotation and fine focus adjustments. It has a range of up to 10 inches of vertical working distance from object. The main body assembly with built in fine adjustment slides up or down into position on the vertical post and can be rotated 360 degrees. A ball and socket type peg allows for up to 45 degrees of adjustable lateral viewing angles while an optional, separate rigid vertical peg provides a dedicated straight-on view allowing for more accurate measurements.

The precision machine crafted components provide smooth adjustment and positioning in a well balanced and stable ergonomic design. Revolving specimen holder can screw directly on top of the MS15X base which is included in the purchase. This allows for full range of movement in rotational, X and Y movements for the absolute best and precise inspection with its fine adjustment knobs. The fixed X-Y positioning stages make viewing and positioning your specimen fast and easy with vertical/horizontal and rotation movement. The travel on the XY Base is as follows: X axis allows for 2.5" and the Y axis allows for 2.5" of movement.

Dimensions	4.7cm (L) x 3.8cm (W) x 6.3cm (H)	Package Includes	Holster
Weight	70g (2.5 oz)	Warranty Period	1 year
Body Material	Metal	Manufactured in	China
Compatible with	All Dino-Lite Handheld Microscopes	Regulatory Approval	ROHS

Dino-Lite Dunwell for Dino-Lite

MS53B

Jointed Articulating Mount

MS53B is a three-point joint articulating mount that uses a clamp to attach to surfaces. The precision machine crafted components provide smooth adjustment and unlimited horizontal positioning in a well balanced ergonomic design. The MS53B can be easily clamped onto and secured to any workstation or table top. Manufactured from durable, lightweight recycled aluminum and able to be folded flat makes the versatile MS53B stand conveniently portable. The MS53B includes a regular tripod mount connector allowing for more versatile usage. Note: The available MS53BA4 option includes the MS523B joint-arm stand with an additional rigid stand and base assembly for use when a workstation table top is not convenient or available.

Dimensions	4.7cm (L) x 3.8cm (W) x 6.3cm (H)	Package Includes	Holster
Weight	70g (2.5 oz)	Warranty Period	1 year
Body Material	Metal	Manufactured in	China
Compatible with	All Dino-Lite Handheld Microscopes	Regulatory Approval	ROHS

Dino-Lite Dunwell for Dino-Lite

SKU

Jointed Articulating Mount With Weighted Base

MS53BA3 is a three-point joint articulating mount with a weighted base. The precision machine crafted components provide smooth adjustment and unlimited horizontal positioning in a well balanced ergonomic design. Manufactured from durable, lightweight recycled aluminum and able to be folded flat makes the versatile MS53BA3 stand conveniently portable. The MS53BA3 includes a regular tripod screw mount allowing for more versatile usage.

Dimensions	4.7cm (L) x 3.8cm (W) x 6.3cm (H)	Package Includes	Holster
Weight	70g (2.5 oz)	Warranty Period	1 year
Body Material	Metal	Manufactured in	China
Compatible with	All Dino-Lite Handheld Microscopes	Regulatory Approval	ROHS

Dino-Lite Dunwell for Dino-Lite

MS53BA4

Jointed Articulating Mount With Wide Base

MS53BA4 is a three-point joint articulating mount that includes a base or clamp to attach to surfaces. The precision machine crafted components provide smooth adjustment and unlimited horizontal positioning in a well balanced ergonomic design. The MS53BA4 can be easily clamped onto and secured to any workstation or table top. Manufactured from durable, lightweight recycled aluminum and able to be folded flat makes the versatile MS53BA4 stand conveniently portable. This stand includes a regular tripod mount connector allowing for more versatile usage.

Dimensions	4.7cm (L) x 3.8cm (W) x 6.3cm (H)	Package Includes	Holster
Weight	70g (2.5 oz)	Warranty Period	1 year
Body Material	Metal	Manufactured in	China
Compatible with	All Dino-Lite Handheld Microscopes	Regulatory Approval	ROHS

Dino-Lite Dunwell for Dino-Lite

MS62P

Multi-Directional Rolling Mount

Rolling rack with HD-P1 holster great for flat surfaces that require viewing in all direction movement. Move the stand easily with 4 rolling ball, clear grip to ensure steady movement. The MS62P can be used in normal settings also as a stand for your Dino-Lite handheld microscope making it another versatile accessory to help you maximize your performance.

Dimensions	4.7cm (L) x 3.8cm (W) x 6.3cm (H)	Package Includes	Holster
Weight	70g (2.5 oz)	Warranty Period	1 year
Body Material	Metal	Manufactured in	China
Compatible with	All Dino-Lite Handheld Microscopes	Regulatory Approval	ROHS

Dino-Lite Dino-Lite

MS62W2

Linear Rolling Mount

Wheel rack stand with HD-M2A holster great for use on a cylindrical type of surface or flat surfaces that require viewing in straight lateral movement. Move the stand easily with 2 rolling pins that are wrapped in a soft, clear grip to ensure steady movement, and also to protect surfaces from being scratched. The MS62W2 can be also used in normal settings also as a stand for a Dino-Lite handheld microscope (sold separately).

The MS62W2 is the updated model of the MS62W1

Dimensions	4.7cm (L) x 3.8cm (W) x 6.3cm (H)	Package Includes	Holster
Weight	70g (2.5 oz)	Warranty Period	1 year
Body Material	Metal	Manufactured in	China
Compatible with	All Dino-Lite Handheld Microscopes	Regulatory Approval	ROHS

Dino-Lite Dunwell for Dino-Lite

MSA2G

Portable Wide Tri-Leg Stand

Designed for Dino-Lite: The MSA2G is a lightweight portable stabilizing stand meant to assist with inspecting hard to reach surfaces such as helicopter blades. The three legged, sturdy metal design keeps the Dino-Lite orthogonal to the surface. It also prevents the Dino-Lite from accidentally falling over when not in use.

Each leg also has a special non-slip rubber pad to protect the surface being inspected and prevent the Dino-Lite from accidentally slipping out of position. The package includes a rubber band which should be placed on the Dino-Lite body before installing the MSA2G. This will provide a stable, secure connection between the microscope and stand. Then, use the three thumb screws to lock the Dino-Lite in the center of the MSA2G.

Dimensions	4.7cm (L) x 3.8cm (W) x 6.3cm (H)	Package Includes	Holster
Weight	70g (2.5 oz)	Warranty Period	1 year
Body Material	Metal	Manufactured in	China
Compatible with	All Dino-Lite Handheld Microscopes	Regulatory Approval	ROHS

Dino-Lite Dino-Lite

RK-02

Desk Clamp Flex Arm Mount

The RK-02 has increased stability in articulation compared to other gooseneck stands. The C-clamp of RK-02 fits to most desk surfaces or poles up to 3-inch in thickness, horizontally or vertically with a 60cm or 23" reach. With excellent shaping capability of the gooseneck arm, the Dino-Lite can be easily positioned by bending the arm and by adjusting the rotating head. The arm base can also be rotated for additional viewing angles, or be fixed with the quick release fastener for uneven surface usage.

Dimensions	4.7cm (L) x 3.8cm (W) x 6.3cm (H)	Package Includes	Holster
Weight	70g (2.5 oz)	Warranty Period	1 year
Body Material	Metal	Manufactured in	China
Compatible with	All Dino-Lite Handheld Microscopes	Regulatory Approval	ROHS

Dino-Lite Dino-Lite

RK-04

Small Holder Rack with Focus Adjustment

Robust, lightweight and compact rack design. The Dino-Lite RK-04 rack is designed with portability and convenience in mind.

Dimensions	4.7cm (L) x 3.8cm (W) x 6.3cm (H)	Package Includes	Holster
Weight	70g (2.5 oz)	Warranty Period	1 year
Body Material	Metal	Manufactured in	China
Compatible with	All Dino-Lite Handheld Microscopes	Regulatory Approval	ROHS

Dino-Lite Dino-Lite

RK-04F

Small Holder Rack with Dual Fine Adjustment

Dino-Lite RK-04F integrated fine adjustment knob facilitates the focusing task. RK04F is a portable, lightweight and robust rack, the perfect accessory for users requiring flexibility.

Dimensions	4.7cm (L) x 3.8cm (W) x 6.3cm (H)	Package Includes	Holster
Weight	70g (2.5 oz)	Warranty Period	1 year
Body Material	Metal	Manufactured in	China
Compatible with	All Dino-Lite Handheld Microscopes	Regulatory Approval	ROHS

Dino-Lite Dino-Lite

RK-05

Small Holder Rack with Tilt Adjustment

The Dino-Lite RK-05 stand provides a multi-angle view with its 30-degree tilt pole feature. Helpful for observing or inspecting your subjects from a different perspective, the RK-05 is a light-weight, ultra-portable stand with a one-step assemble/disassemble design.

Dimensions	4.7cm (L) x 3.8cm (W) x 6.3cm (H)	Package Includes	Holster
Weight	70g (2.5 oz)	Warranty Period	1 year
Body Material	Metal	Manufactured in	China
Compatible with	All Dino-Lite Handheld Microscopes	Regulatory Approval	ROHS

Dino-Lite Dino-Lite

RK-06A

Adjustable Precision Mount

The Dino-Lite RK-06A tabletop stand is designed for general purpose and built with quality. With smooth focus adjustment and quick vertical movement, the RK-06A eases the task of focusing when using Dino-Lite microscopes. The ease-of-assembly and adaptable extension arms (2) design add further mobility and flexibility to user's applications. For users that require additional working distance, the optional RK-06-PL extension pole is available.

Dimensions	4.7cm (L) x 3.8cm (W) x 6.3cm (H)	Package Includes	Holster
Weight	70g (2.5 oz)	Warranty Period	1 year
Body Material	Metal	Manufactured in	China
Compatible with	All Dino-Lite Handheld Microscopes	Regulatory Approval	ROHS

Dino-Lite Dino-Lite

RK-06AE

Adjustable Precision Mount with ESD Protection

The Dino-Lite RK-06AE tabletop stand with ESD protective base designed for general purpose, smooth focus adjustment and quick vertical movement, the RK-06AE eases the task of focusing when using Dino-Lite microscopes. The ease-of-assembly and adaptable extension arms (2) design add further mobility and flexibility to user's applications. For users that require additional working distance, the optional RK-06-PL extension pole is available.

Dimensions	4.7cm (L) x 3.8cm (W) x 6.3cm (H)	Package Includes	Holster
Weight	70g (2.5 oz)	Warranty Period	1 year
Body Material	Metal	Manufactured in	China
Compatible with	All Dino-Lite Handheld Microscopes	Regulatory Approval	ROHS

Dino-Lite Dino-Lite

RK-06FA

Adjustable Precision Mount with Fine Adjustment

Dino-Lite RK-06FA is a multipurpose tabletop stand that provides flexibility and robustness, yet provides fine adjustment to ease focusing tasks. Includes RK-10-EX arm for additional positional capabilities. For users that require additional working distance, the optional RK-06-PL extension pole is available.

Dimensions	4.7cm (L) x 3.8cm (W) x 6.3cm (H)	Package Includes	Holster
Weight	70g (2.5 oz)	Warranty Period	1 year
Body Material	Metal	Manufactured in	China
Compatible with	All Dino-Lite Handheld Microscopes	Regulatory Approval	ROHS

Dino-Lite Dino-Lite

RK-10A

Versatile Precision Mount

The Dino-Lite RK-10A universal stand is a stable tabletop platform that features precise fine-focus adjustment and is compatible with the complete line of Dino-Lite handheld microscope cameras. The RK-10A quick release button is helpful for fast and convenient vertical movement and fine-focus adjustment knob is especially useful at high magnification. Its adjustable horizontal arm has a 7-inch range with 360-degree rotation and the included optional arm attachment increases its effective range of motion. These features combine to provide complete command and control of microscope orientation and positioning for maximum productivity and ease of use. The RK-10A is composed of resilient stainless steel and lightweight aluminum. More optional accessories are available including the RK-10-VX for additional vertical working distance.

Dimensions	4.7cm (L) x 3.8cm (W) x 6.3cm (H)	Package Includes	Holster
Weight	70g (2.5 oz)	Warranty Period	1 year
Body Material	Metal	Manufactured in	China
Compatible with	All Dino-Lite Handheld Microscopes	Regulatory Approval	ROHS

Dino-Lite Dino-Lite

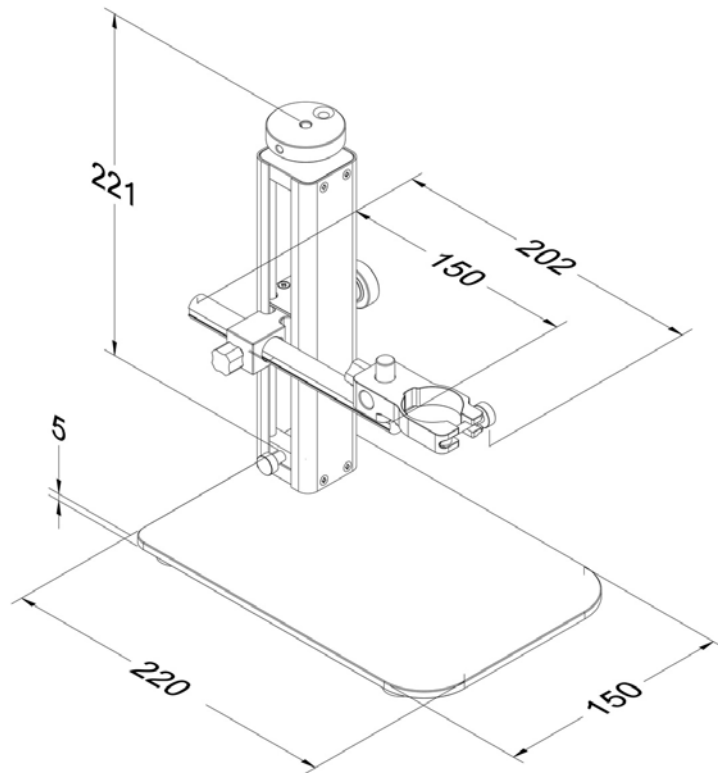

RK-10FS

Sturdy Precision Mount

The RK-10FS is an upgraded version of the RK-10, which incorporates a heavier antistatic baseplate that suppresses external vibrations, making it an optimal choice for stable operation including high-magnification inspections.

The updated RK-10FS features an improved quick release button with an anti-backlash mechanism that enhances its ability to make precise focus adjustments, ensuring smoother and more responsive operation.

Dimensions in mm

Dimensions	4.7cm (L) x 3.8cm (W) x 6.3cm (H)	Package Includes	Holster
Weight	70g (2.5 oz)	Warranty Period	1 year
Body Material	Metal	Manufactured in	China
Compatible with	All Dino-Lite Handheld Microscopes	Regulatory Approval	ROHS

RK-05

If you want to observe your object or specimen from a different perspective, the Dino-Lite RK-05 stand provides a multi-angle view with its 30 degrees inclinable pole. RK-05 is a light-weight, ultra-portable stand with a one-step assemble/disassemble design.

All Dino-Lite microscopes are compatible with this stand with the exception of the Long Working Distance microscopes.

The package includes the stand and a HD-P1 holder.

ADDITIONAL INFO

DETAILS

RK-06A

The Dino-Lite RK-06A stand is a sturdy and stable mid-range stand solution that can be used with all Dino-Lite digital microscopes. It is constructed of stainless steel and lightweight aluminum and offers precise fine-focus adjustment as well as a quick vertical release function.

Its adjustable horizontal arm has a 15cm range with 360-degree rotation and with the RK-10-EX arm (included) its effective range can be extended to observe larger objects. Various optional accessories are available for the RK-06A, such as the RK-10-FX flexible arm or the RK-10-PX, XY arm. With these features, the RK-06A is the ideal mid-range stand solution for precise orientation and maximum flexibility.

- **RK-10-EX:** additional horizontal arm (included)
- **RK-10-FX:** flexible arm extension
- **RK-10-VX:** vertical arm extension
- **RK-10-PX:** XY positioning arm with accurate and smooth adjustment options, designed for all sorts of applications that require fine examination with a X- and Y-axis movement.

ADDITIONAL INFO

DETAILS

Accessory range:	Professional stands
Price range:	€150,00 - €250,00
ESD-Safe:	No
Dimensions:	22 cm (L) x 15 cm (W) x 27 cm (H)
Weight:	1060 g
Compatible with:	All Dino-Lite models
Package contents:	Stand, HD-P1 holder, RK-10-EX horizontal arm
Warranty:	1 year European warranty

RK-10A

The Dino-Lite RK-10A is a sturdy and stable high-end stand solution that can be used with all the professional Dino-Lite models. It is constructed of resilient stainless steel and lightweight aluminum and offers a very precise fine-focus adjustment as well as a quick release function.

The quick release button allows for fast and convenient vertical movement and the fine-focus adjustment knob is especially useful at high magnification. This model also includes an adjustable safety stop to prevent the microscope from touching the specimen. Its adjustable horizontal arm has a 15cm range with 360-degree rotation and the additional arm (RK-10-EX included) increases its effective range to observe larger objects. With these features, the RK-10A is the ideal accessory for precise orientation and positioning for maximum productivity and ease of use in a wide range of environments including industrial, scientific and laboratory settings.

- **RK-10-EX:** additional horizontal arm (included with RK-10A)
- **RK-10-FX:** flexible arm extension
- **RK-10-VX:** vertical arm extension
- **RK-10-PX:** XY positioning arm with accurate and smooth adjustment options, designed for all sorts of applications that require fine examination with a X- and Y-axis movement.

Warranty:	1 year European warranty

MS35B - END OF LIFE -

Square metal base with column and support providing several adaptable heights. The MS35B is a stable vertical desktop stand that was designed to be used with the Dino-Lite digital microscopes.

It provides 360 degrees of horizontal axis rotational perspective and as much as 20 cm of vertical working distance from the object. The Dino-Lite holder is mounted onto a ball and socket jointed post, which allows for a maximum of 45 degrees of adjustable lateral viewing angles. The ball and socket jointed post is mounted onto a dove tail slider for additional focus and magnification support. The slider can be positioned on any point of the pole for the various focal distances of the Dino-Lite digital microscope. The precision components of this stand provide smooth adjustment and positioning in a well balanced and stable ergonomic design. The MS35B is manufactured from a combination of resilient stainless steel and lightweight recycled aluminum. The MS35B is very portable yet stable stand solution.

DETAILS	
Accessory range:	Professional stands
Price range:	€50,00 - €150,00
ESD-Safe:	No
Dimensions:	12.5cm (W) x 20.5cm (L) x 30.5cm (H)
Weight:	1.1 kg
Compatible with:	All Dino-Lite models
Package contents:	Stand, HD-P1 holder
Warranty:	1 year European warranty

MS3XWAB

The MS3XWAB is a rugged base for the MS35B and MS36B stand. This heavy-duty base was developed for use in a laboratory environment, petri dishes / cell culture dishes of up to 90mm in diameter fit perfectly inside this base.

The MS3XWAB is a sturdy base made from aluminium alloy and is an excellent choice for use in a laboratory. Please note that this product is the base only and is to be used together with the Dino-Lite MS35B or MS36B stands as an optional replacement base.

ADDITIONAL INFO

DETAILS	
Accessory range:	Professional stands
Price range:	€50,00 - €150,00
ESD-Safe:	No
Dimensions:	30.6cm (L) x 31.8cm (W) x 2.2cm (H)
Weight:	900 g
Compatible with:	MS35B/MS36B
Package contents:	MS3XWAB base plate
Warranty:	1 year European warranty

RK-02

The RK-02 is a durable gooseneck stand solution designed for flexible and versatile usage with a Dino-Lite digital microscope. The C-clamp of the RK-02 fits to virtually any surface of up to 7 cm (~3 inch) thick, and can be mounted horizontally or vertically. With this sturdy stand, you can easily position the Dino-Lite by bending the 60 cm long arm and adjusting the rotating head. The base of the RK-02 can also be rotated providing even more freedom and it can be fixed with the quick release fastener for use on uneven surfaces. The RK-02 gooseneck arm is the ideal choice to flexibly use any of the Dino-lite models, except the high magnification models.

ADDITIONAL INFO

DETAILS	
Accessory range:	Professional stands
Price range:	€50,00 - €150,00
ESD-Safe:	No
Dimensions:	Gooseneck 60cm (L) x 1.5cm (D)
Weight:	1.5 kg
Compatible with:	All Dino-Lite models
Package contents:	Stand, HD-P1 holder
Warranty:	1 year European warranty

MS52B

Dino-Lite heavy duty jointed flex arm stand. The MS52B is a jointed articulating flex-arm type stand with holster for use with the Dino-Lite hand held digital microscopes.

The precision machine crafted components provide smooth adjustment and unlimited horizontal positioning in a well balanced ergonomic design. The MS52B can be easily clamped onto and secured to any workstation or table top. Manufactured from durable, lightweight recycled aluminum and able to be folded flat makes the versatile MS52B stand conveniently portable.

Note: The available MS52BA2 option includes the MS52B flex-arm stand with an additional rigid vertical floor stand and base assembly for use when a workstation table top is not convenient or available.

ADDITIONAL INFO

DETAILS	
Accessory range:	Professional stands
Price range:	€250,00 - €350,00
ESD-Safe:	No
Dimensions:	35.5cm (W) x 16.5cm (L) x 5cm (H)
Weight:	1.8 kg
Compatible with:	All Dino-Lite models
Package contents:	Stand, HD-P1 holder
Warranty:	1 year European warranty

MS52BA2

Heavy duty table base for the MS52B. The MS52BA2 is a combination of the rigid MS52B articulating flex-arm and a desktop base rack that holds the MS52B on top of a table.

The desktop base rack is designed for situations where the standard clamp cannot be used to secure the MS52B on a stable surface. The flex-arm is moved and adjusted with tightening knobs and clamps for positioning the arm to the area you wish to examine. Two of the flex-arm axis can be rotated 360 degrees and extended for further reach. The MS52BA2 flex-arm is manufactured from durable, lightweight recycled aluminum and has the ability to be folded flat, which makes the MS52BA2 stand portable and ready for travel.

ADDITIONAL INFO

DETAILS	
Accessory range:	Professional stands
Price range:	€250,00 - €350,00
ESD-Safe:	No
Dimensions:	35.5cm (W) x 16.5cm (L) x 5cm (H)
Weight:	4 kg
Compatible with:	All Dino-Lite models
Package contents:	Stand, table base, HD-P1 holder
Warranty:	1 year European warranty

MS15X

The MS15X is an advanced XY table that can be used independently or in combination with the RK-06A or RK-10A column stands.

The MS15X X/Y table base with detachable rotating table is designed for use with all sorts of applications that require fine examination in an X (45mm)- and Y-axis (50mm) movement. With the 360 degree rotating table, one can easily carry out all kinds of precision examinations. The MS15X can be used stand-alone or attached to the RK-06A and RK-10A stands (with the included C-Clamps)

ADDITIONAL INFO

DETAILS	
Accessory range:	Professional stands
Price range:	€50,00 - €150,00
ESD-Safe:	No
Dimensions:	12.7cm (W) x 15.2cm (L) x 7.6cm (H)
Weight:	907 g
Compatible with:	All models; can be mounted on RK-06A/RK-10A
Package contents:	Base, stage, clamps
Warranty:	1 year European warranty

MS-W1

Special stand for cylinder surfaces or to roll on flat surfaces. Delivered with a HD-M1 metal holder. The MS-W1 stand with HD-M1 holster is a minimalistically designed stand that easily keeps the Dino-Lite digital microscope in place.

The arcs on the MS-W1 enables the user to easily examine cylindrical objects such as printing rolls. The barrel rollers at the bottom of the arcs are wrapped in rubber which helps to prevent the stand from scratching or harming the surfaces it is examining. The MS-W1 can be used to examine tubular objects of at least 7 centimeters in diameter. With the two barrel rollers, the MS-W1 stand can also be rolled forward or backward making it a great solution for surface inspection; such as inspection of artwork, blank PC boards, or any other flat surfaces. The HD-M1 holster included with the MS-W1 roller rack can be separated and be attached to poles 10mm or 8mm in diameter. The Dino-Lite is secured in place on the holster by a single thumbscrew. The holster is secured to a guidance pole also with a separate thumbscrew.

ADDITIONAL INFO

DETAILS	
Accessory range:	Professional stands
Price range:	€50,00 - €150,00
ESD-Safe:	No
Dimensions:	12.7cm (W) x 8.3cm (L) x 4.4cm (H)
Weight:	362 g
Compatible with:	All Dino-Lite models
Package contents:	Stand, HD-M1 holder
Warranty:	1 year European warranty

MSAK810

The MSAK810 adjustable flex arm which can be attached to the pole of a MS35B/MS36B for additional hands free viewing angles with the Dino-Lite. The arm has a maximum of 30cm reach, and can be bent and twisted to attain your desired viewing positions.

The MSAK810 is a great addition to a MS35B/MS36B allowing an in-depth visual inspection with multiple Dino-Lite's.

ADDITIONAL INFO

DETAILS	
Accessory range:	Professional stands
Price range:	€0 - €50,00
ESD-Safe:	No
Dimensions:	35.5cm (W) x 3.1cm (L)
Weight:	181 g
Compatible with:	All Dino-Lite models
Package contents:	Stand, HD-P1 holder
Warranty:	1 year European warranty

MS08B

The MS08B is an ultra-portable mini stand that holds the Dino-Lite in place whenever you need to. The MS08B is a great little accessory to enhance the Dino-Lite's microscopic portability solution.

ADDITIONAL INFO

DETAILS	
Accessory range:	Basic stands
Price range:	€0 - €50,00
ESD-Safe:	No
Dimensions:	7.5cm (W) x 10cm (L) x 14,5cm (H)
Weight:	500 g
Compatible with:	All Dino-Lite models
Package contents:	Stand, HD-P1 holder
Warranty:	1 year European warranty

MS23B - END OF LIFE -

The MS23B is a desktop clamp with flexible gooseneck that can be clamped to a desktop or any other surface of up to 3cm thick. The arm has a wide reach of 35cm and can be bent and twisted in the required position for easy and convenient inspection of all sorts of objects with the Dino-Lite digital microscope.

Price range:	€0 - €50,00
ESD-Safe:	No
Dimensions:	14cm (W) x 10.1cm (L) x 5.7cm (H)
Weight:	156 g
Compatible with:	All Dino-Lite models
Package contents:	Stand, HL2 holder
Warranty:	1 year European warranty

MS12C

Variable view range caddy with two variable view range adapters, transparent. The MS12C is not compatible with polarizer models or models in the AD Pro 2 range. The MS12C consists of a base unit with two insert adapters providing three "hands free" fixed working distance and magnification options.

Ideal for collectors, hobbyists, graphic artists a well as at home or in the classroom. The Dino-Lite digital microscopes simply slides into the base or one of the adapters. The clear acrylic base design allows easy accessibility of tools and light to the observed object.

DETAILS	
Accessory range:	Basic stands
Price range:	€0 - €50,00
ESD-Safe:	No
Dimensions:	8.2cm (W) x 8.2cm (L) x 7.6cm (H)
Weight:	54 g
Compatible with:	All Dino-Lite models, except models in AD series and models with polarizer
Package contents:	Stand + 2 adapters
Warranty:	1 year European warranty

MS35BE - END OF LIFE -

Square metal base with ESD-safe coating with column and support providing several adaptable heights. The MS35BE comes with an ESD (electrostatic discharge) safe base plate instead of the standard MS35B base plate.

The MS35BE is a stable vertical desktop stand that was designed to be used with the complete line of Dino-Lite ESD-safe digital microscopes. It provides 360 degrees of horizontal axis rotational perspective and as much as 20 cm of vertical working distance from the object. The Dino-Lite holder is mounted onto a ball and socket jointed post, which allows for a maximum of 45 degrees of adjustable lateral viewing angles. The precision components of this stand provide smooth adjustment and positioning in a well balanced and stable ergonomic design. The MS35BE is manufactured from a combination of resilient stainless steel and lightweight recycled aluminium making it a very portable yet stable stand solution.

Accessory range:	ESD safe stands
Price range:	€50,00 - €150,00
ESD-Safe:	Yes
Dimensions:	12.5cm (W) x 20.5cm (L) x 30.5cm (H)
Weight:	1.1 kg
Compatible with:	All Dino-Lite models
Package contents:	Stand, HD-P1 holder
Warranty:	1 year European warranty

RK-06-AE

Square metal base with ESD-safe coating with column and support providing several adaptable heights. The RK-06-AE comes with an ESD (electrostatic discharge) safe base plate instead of the standard RK-06A base plate. The RK-06-AE is a stable vertical desktop stand that was designed to be used with the complete line of Dino-Lite ESD-safe digital microscopes.

The Dino-Lite RK-06-AE stand is a sturdy and stable mid-range stand solution that can be used with all Dino-Lite digital microscopes. It is constructed of stainless steel and lightweight aluminum and offers precise fine-focus adjustment as well as a quick vertical release function.

Its adjustable horizontal arm has a 15cm range with 360-degree rotation and with the RK-10-EX arm (included) its effective range can be extended to observe larger objects. Various optional accessories are available for the RK-06-AE, such as the RK-10-FX flexible arm or the RK-10-PX, XY arm. With these features, the RK-06-AE is the ideal mid-range stand solution for precise orientation and maximum flexibility.

- **RK-10-EX:** additional horizontal arm (included)
- **RK-10-FX:** flexible arm extension
- **RK-10-VX:** vertical arm extension
- **RK-10-PX:** XY positioning arm with accurate and smooth adjustment options, designed for all sorts of applications that require fine examination with a X- and Y-axis movement.
